Vol. XXXVIII.—No. 1

Military Appointments Announced By Commandant

Construction Is Near Completion

Gardiner Will Command Cadet Military Organization

Stadium, Water Plant Be Ready For Next Year

Clemson's construction program begun before the war made building impossible, will be complete by the time school opens for next year, officials say. Stringent wartime restrictions regulating all construction work will make a further expansion of the college plant impossible until after the war.

The new \$150,000 water filtration and purifying plant, begun last summer, will be in actual operation by early September. The pumping station for the plant is located on the Seneca River near the YMCA cabin, with the filtration plant and laboratories located near the public utilities building. The new plant will replace the recent outdated system installed in 1918, when the college enrollment and the community were about half their present size. Several water shortages in recent years created health and fire hazards and made the installation of a new system imperative.

The new plant, one of the most modern possible, was financed through a state appropriation of \$75,000, supplemented by WPA funds and college labor to bring the total cost to approximately \$150,000. Plans and specifications for the plant were donated by the J. E. Sirmine Company of Greenville, and were carried out under the supervision of Professor H. W. Glenn of the Engineering department and Mr. David J. Watson, superintendent of college buildings and grounds.

A special feature of the plant is a scientific control laboratory to be used by Clemson students for special courses in the science of water supply and water chemistry. At the present time no such course is offered in South Carolina and health officials have urged the installation of such a laboratory at Clemson College.

Construction work on Clemson's new 20,400 seat football stadium is now complete with the exception of dressing rooms and a press box. Financed by a bond issue of \$110,000 authorized by the state legislature last year, the stadium will have a completed value of about \$130,000. Sodding of the playing field and the construction of dressing rooms, a press box, fences and gates to the field by college labor effected a saving of between \$10,000 and \$20,000, it was estimated. Contract for the stadium went to C. Y. Thomason Company of Greenwood. Credit for the design of the bowl goes to Carl Lee of Charlotte, Clemson graduate of '08, and Professor H. E. Glenn of the engineering faculty with their assistants.

Repairs to the mess hall cold storage plant and kitchen will be completed this year. Cold storage equipment is being moved upstairs to the former dry storage rooms, and the basement will be used for dry storage space. Repairs to the kitchen will greatly facilitate the handling of food next year, it is claimed. The repairs were made possible by a state appropriation of \$35,000 last session.

Prof. Edward's Daughter To Marry Clemson Graduate

The engagement of Mary Jane Edwards, daughter of Professor George H. Edwards of the mathematics department, to Lieutenant John Robert Bailey, mechanical engineering '39, was announced recently. The marriage will be solemnized in the early fall. Lieutenant Bailey is now in the Army Air Corps, located at Randolph Field, Texas.

Clyburn Attends Pastor's School

Rev. David A. Clyburn, Clemson Methodist minister, attended the annual Pastor's Institute and Educational Conference at the University of Chicago this summer. The two-week institute is conducted jointly by the Divinity School of the University of Chicago, the Chicago Theological Seminary, Disciples Divinity House, and the Meadville Theological School.

Bengals Will Play Stiff Competition

Two days after Coach Frank Howard scheduled the U. S. Naval Air Station at Jacksonville, Fla., for a game on Clemson's open date, he learned that the Jacksonville base team included eight former All-American players.

Twenty-One Men On Faculty Get Higher Places

Promotions of twenty-one members of the faculty were recently announced by Dr. Robert F. Poole, president.

They are H. M. Cox from instructor of English to assistant professor of English, C. L. Epting from instructor in history and government to assistant professor of history and government, Burns Gillison from foreman of the college farm to field assistant of the college farm, J. C. Green from assistant professor of English to associate professor of English, O. B. Garrison from assistant horticulturist to associate horticulturist, L. D. Huff from assistant professor of physics to professor of physics, D. R. Jenkins from assistant professor of rural sociology to associate professor of rural sociology, J. M. Jenkins from assistant horticulturist to associate horticulturist, F. M. Kinnard from associate professor of English to professor of English, J. D. Lane from associate professor of English to professor of English, and E. J. Lease from associate chemist to associate professor of chemistry.

Also D. A. McDowell from instructor in English to assistant professor of English, C. J. Nussbaum from assistant plant pathologist to associate plant pathologist, M. J. Peterson from assistant rural sociologist to associate rural sociologist, R. C. Ringrose from assistant poultry husbandman to associate poultry husbandman, L. E. Scott from assistant horticulturist to associate horticulturist, Rupert Taylor from associate professor of English to professor of English, I. A. Trivelpy from instructor in civil engineering to assistant professor of civil engineering, Edgar Vandiver from instructor in physics to assistant professor of physics, L. O. VanBlaricom from assistant horticultural manufacturer to associate in horticultural manufactures, and F. W. ZurBurg from assistant professor of chemistry to associate professor of chemistry.

Construction work on Clemson's new 20,400 seat football stadium is now complete with the exception of dressing rooms and a press box. Financed by a bond issue of \$110,000 authorized by the state legislature last year, the stadium will have a completed value of about \$130,000. Sodding of the playing field and the construction of dressing rooms, a press box, fences and gates to the field by college labor effected a saving of between \$10,000 and \$20,000, it was estimated. Contract for the stadium went to C. Y. Thomason Company of Greenwood. Credit for the design of the bowl goes to Carl Lee of Charlotte, Clemson graduate of '08, and Professor H. E. Glenn of the engineering faculty with their assistants.

Major Courses Show Engineering Trend

Major courses chosen by freshmen indicate a significant trend toward the engineering field. Four hundred and thirty-seven, or fifty-five per cent, of the 800 freshmen are planning to take one of the engineering courses, including chemistry, engineering, and civil, electrical, and mechanical engineering.

The proportion of freshmen taking engineering has steadily increased from thirty-three per cent in 1938-1939 to the estimated fifty-five per cent for 1942-1943. The proportion of students in all classes taking engineering has increased from twenty-nine per cent in 1938-1939 to an estimated forty-four per cent for 1942-1943.

Clothing Room Reorganized; Uniforms To Be Issued Faster

A complete reorganization of the clothing room, including the installation of additional shelf space, will greatly speed up the issue of uniforms for next year. Sergeant Garvan Cannon, in charge of the clothing room, said.

In addition to the regular articles of uniform, the clothing room will carry a line of necessary supplementary articles for cash sale. Chevrons for all uniforms of the corps, for both shirts and blouses,

BRIGADIER GENERAL Floyd L. Parks, Clemson graduate who is now on active duty "somewhere in England."

Taps Editors Urge Freshmen To Save Hair For Photographers

Flight Students Continue Course

Ten Naval Air Corps Reserve students Class V-5, and six Army Air Corps Reserve students have been continuing their aviation course at Clemson through the summer. It is now a full time course with 240 hours of ground school work and approximately 35 hours of flight training. The Naval students have completed twenty hours of flying time while the Army students have completed ten. The course, which lasts eight weeks, is now fully paid by the government. At the end of the basic training period, both the Naval and Army men will be allowed to go into secondary training with the exception of the boys in the glider course, who will be sent to a glider school for further study.

A similar course will begin around September 15. Students will live on the campus and will be transported to Greenville in a new bus that has recently been given to C. J. T. for that purpose to replace the station wagon that has been used in the past.

Educational requirements for this branch of the service have been eased. All that is now required is that applicants pass the required entrance exam. The ground school course now includes mathematics, physics, navigation, meteorology, civil air regulations, general servicing and operation of aircraft, Morse code, military and physical training, military science and discipline, and aircraft identification.

will be carried at cost. All shoulder insignia, good cap bands for seniors, and class numerals will be offered at wholesale prices. Black uniform neckties will be carried in stock by the clothing room. Special sizes will be ordered from personal measurements. "We expect a quicker issue of uniforms than ever before," Sergeant Cannon said. "The entire corp should be in blouses long before State Fair time."

U. S. C. Confers Honorary Degree Upon Dr. Poole

Dr. Robert Franklin Poole, Clemson president, was awarded the honorary degree of Doctor of Laws at graduation exercises of the University of South Carolina May 25. The degree was conferred in recognition of Dr. Poole's outstanding contributions to the field of education.

Already a nationally-known plant pathologist when he assumed the duties of president of Clemson, Dr. Poole has continued his work in this field as a hobby. He has published more than 130 scientific bulletins on plant diseases and methods of controlling them, besides contributing numerous articles to scientific journals.

Other degrees held by Dr. Poole include his M. S. secured in 1917 and his Ph.D. secured in 1921 at Rutgers University, and the D. Sc. degree conferred by Clemson in 1937.

Defense Courses To Be Continued

A vocational National Defense course, under the supervision of S. E. Earle, dean of the School of Engineering, has been put in operation for the purpose of training machinists and welders for various industries such as ship construction. During the summer, there have been three sections in welding and two in machine tools. All welding sections will continue during the coming fall, while only one in machine tools will be continued.

In the Engineering Science Management War Training of College graduates the following courses are in operation: Drafting, with sections in Greenville, Walhalla, Clemson, Anderson and Easley; Fundamentals of Radio, with sections in Spartanburg, Greenville, Clemson, Anderson and two in Greenwood; and Reinforced Concrete Design, with one course in Greenville. Other courses will probably be added in early fall.

Two Graduates Recently Given Foreign Duty

Two Clemson graduates were recently commissioned second lieutenants in the Army Air Corps at Turner Field, Albany, Georgia. They are Woodrow H. Stokes, vocational agricultural education '40 of Greer, and Hubert E. Miller, vocational agricultural education '40 of Ridgeland. Miller will be remembered for his brilliant play on the Clemson football team.

The promotion of Colonel Floyd L. Parks, M.E. and E.E. '17, to the rank of Brigadier General was announced recently by the War Department. General Parks is now "somewhere in England."

During his senior year at Clemson General Parks held the rank of cadet major and was editor of The Tiger.

Born in Kentucky and educated in South Carolina, General Parks served as secretary of the General Staff at General Headquarters United States Army before being assigned as Deputy Chief of Staff of the Army Ground Forces.

An authority on mechanized warfare and military operations, General Parks has an impressive record of meritorious achievement in staff and field work which includes tours of duty throughout the United States and Hawaii.

Born in Louisville, Kentucky, Feb. 9, 1896, General Parks is the son of Judge and Mrs. Lyman Lewis Parks. After attending grade and preparatory schools in Kentucky and South Carolina, he entered Clemson College, S. C. in 1914, and while there received his basic military training, graduating in 1917 with a B.S. degree in Mechanical and Electrical Engineering.

During his senior year at Clemson, General Parks was Cadet Major of the Corps of Cadets and Editor of The Tiger. In 1924 he took his M.S. in Mechanical Engineering at Yale University.

Farr Transferred, Receives Promotion

Major Frank B. Farr, arts and science '30, was recently transferred as assistant professor of military science and tactics here at Clemson to North Carolina State University. Major Farr left Clemson as a Captain where he has been teaching for the past few years. His return to Clemson is uncertain.

Engineering And Textile Schools Lose Professors

Two members of the faculty of the school of textiles and three from the school of engineering have been called into the armed forces.

From the school of textiles the faculty members are M. L. Huckabee, instructor in textiles, and W. E. Tarrant, assistant professor of weaving. These positions are as yet unfilled.

The men that have been called from the engineering department are A. M. Quattlebaum, professor of civil engineering, E. B. Therker, professor of electrical engineering, and William M. Wachter, professor of mechanics and hydraulics.

Henry Bradford Gets Promotion

A former Lab-Technician for Goodyear Tire and Rubber Company, Second Lieutenant Henry Bradford, Jr., of Rome, Ga., who finished Clemson last February, has been promoted to the rank of first lieutenant. He is stationed at Wellston Air Depot, Wellston, Georgia.

Graduate Goes To Fort Jackson

Lieutenant Herbert D. Merritt of Fairplay was recently sent to Fort Jackson where he will assist in administrative functions. After receiving his commission here at Clemson, he became instructor of agriculture in Dalton, Ga.

Floyd L. Parks, Clemson Grad, Promoted To Brigadier General

S. Army—General Parks first became interested in the weapon which became most associated with his varied military career. Promoted to Captain, Tank Corps, in September, 1918, he remained in the service after Armistice, serving in various parts of the United States and in Hawaii. He rounded out his education in tank warfare at the Fort Benning Infantry School and a year at Yale where he received his Master's degree.

In 1935, General Parks was graduated from the Command and General Staff School at Fort Leavenworth, Kansas, and, in 1940, from the Army War College in Washington.

He was appointed First Lieutenant, Infantry, Regular Army, 1920; Captain, 1931; Major, 1939; Lieutenant Colonel, April 18, 1941. He was aide to General Malin Craig, Chief of Staff, U. S. Army, Washington, from 1937-39 and acting aide to General George C. Marshall, present Chief of Staff, U. S. Army, from July 1, 1939 to Sept. 14, 1939.

Following his graduation from the Army War College in 1940, General Parks served with the 2nd Armored Division, Fort Benning, Ga., and was on the General Staff of that organization when he was called to General Headquarters, U. S. Army, at Washington in July, 1941, to be Secretary to the General Staff. After the Army Reorganization, March 9, 1941, he was designated Deputy Chief of Staff of the Army Ground Forces by Lieut. General McNair, in which capacity he served until June 15, 1942, when he became Chief of Staff.

General Parks' two brothers also are in the Army, both of them being Majors. His mother, an 86-year-old aviation enthusiast who makes frequent trips by air to visit her son, lives in Greenville, South Carolina.

While with the 65th—the original Tank Corps organization in the U.

Walker Gardiner, agricultural economics '43 of Florence, has been named by the military department to serve as cadet brigade commander for the 1941-42 session.

Vacancies in the brigade organization will be filled later, Colonel Pool said. Announcements of promotions or additional appointments will be issued as soon as they are made.

The complete brigade organization appears below.

WALKER GARDINER

Free Shows To Continue At Y

The practice of the Y. M. C. A. to offer one moving picture a week free to the cadets will continue this year. Preston B. Holtzendorf, general secretary of the Y said. This picture is usually run Friday morning from 11 to 1 and Friday afternoon from 1:30 to 3, on other days of the week pictures are shown for an admission of 15c and 20c.

McRae Will Head Military Group

J. R. McRae, agricultural economics '43 of Olio, was named captain of Seaboard and Blade, national honorary military fraternity, at a meeting last May.

J. R. Derrick, pre-medicine '43 of Clayton, Ga., was elected second lieutenant of the organization.

The Tiger

The South's Most Interesting College Newspaper

Founded by class of 1907 and published weekly during the college session by students of Clemson College.

The TIGER is South Carolina's oldest college newspaper; its claim "The South's Most Interesting College Newspaper" is based on circulation, comment, and general attitude of those who read The Tiger.

Entered as Second Class Matter at the postoffice, Clemson, S. C.

It Pays To Support It—

The Tiger Brotherhood sponsored Cooperative Book Exchange will be in operation when you arrive at school this year. The success or failure of the venture depends upon the support we give it.

The words "Cooperative Exchange" mean just what they imply. It is a non-profit enterprise, sponsored for the good of Clemson students, in an attempt to reduce costs on an important item that every student has to have. It was planned by students, is operated by students, and will benefit students.

The plan is essentially a division of profits between the buyer and the seller. It will allow a student to receive more money for his books than has formerly been possible and at the same time buy the books he needs at a lower cost than ever before through an equal split of what would otherwise be the retailer's profit.

The Cooperative is in capable hands. We are confident of Tiger Brotherhood's ability to manage the venture. With student support, the experiment cannot fail. Support the Book Exchange. Its success means dollars and cents in your pocket.

Congratulations All Around—

Congratulations to all you boys who are going to run the military end of things next year. If you didn't get the position that you had your eye on, then we're sorry, but it's pretty certain that a better man got the place anyhow. You have been given a position of trust and responsibility. Make certain that you are worth the risk.

A Word To Freshmen—

You freshmen will find Clemson different from anything that you have seen in the way of colleges. You'll find a school that is really run by the students themselves. You'll find a newspaper that has no censorship other than that which it imposes upon itself. You'll find a military system set up and perpetuated by the students. You'll find a Board of Trustees made up of men who really have student interests at heart, men who welcome advice and criticism from the lowliest rat and from the highest ranking senior. You'll find an administration headed by men who have a real understanding of student problems.

In short, you'll find that Clemson is a democracy in the truest sense of the word.

If you are to become a valuable and well-adjusted part of this democracy, you must decide upon your future place in it now. Don't be afraid to set your sights high, for you can attain any goal Clemson can offer. Whether you aim for scholarship, military rank, extra-curricular distinction, or some other honor, aim for the highest place in your chosen field.

All freshmen enter Clemson on an equal footing. It's up to you to decide what you will make of yourself. The son of a share-cropper and the son of an industrial magnate share equally in the Clemson-heritage of democracy. The social system here is one of absolute equality. You will learn the true meaning of the word "fraternity" when you claim membership in the Clemson brotherhood. You will rise or fall on your own initiative.

Your class will start its life here without organized leadership, without outstanding men. Later, those outstanding men will appear. Some will become leaders, and all the rest will follow. Nobody picks them out. That won't be necessary.

Whether or not you become a leader is for you to decide. But at least resolve to work, and work hard, and you'll find that the rest will take care of itself. Whatever you do, don't be a drifter. Set your course for the top, and you will never regret that you did so.

And To Old Students—

Clemson will be a little different this year, old students. The system is the same, but you'll realize at once that things have changed. Maybe it's the war that did it, but whatever it was, there's a new interest about the place, and a new emphasis on the vital military phase of our life. It's going to be stiffer, and that's no joke.

Not as stiff, however, as the rigid schedule of our men in the service. Not as stiff as the life in the Army or the Navy or Marine Corps or Air Corps. But stiffer than we have been used to in the past.

Never before has the problem of getting an education for war been so pressing as it now is. Our fighting men need competent, well-informed officers, and we have to provide them. We have to be those officers.

Don't gripe if your regular afternoon siesta is wrecked by a special drill, or if your movie schedule is ruined by other extra work. You need it, as our last year's grads have probably told you already. Their advice is "get all the military training that you can beg, borrow, or steal, and hang onto it as though it were the last chance to get any coaching before you appear before that platoon of men who can tell at a glance whether or not you know your stuff. Then study some more."

That's good advice, and it comes from men who ought to know.

Thanks To The Y—

Thanks to Tillie Heyward and the YMCA, summer school wasn't as monotonous as we had expected. With a weekly social to make things interesting, the twelve weeks of heat and insects passed more quickly than we would have thought possible.

The Y has always been interested in the program of student entertainment, and this summer it inaugurated a program of small dances that went over with a bang.

Such a program extended to include the regular college year will do much toward answering the ever more pressing question of entertainment on week-ends. Travel is already becoming a hazy memory. "Bumming" is terrible, and it will get worse. Weekly dances at the Y would not interfere with the regular CDA program, and should encourage many students to remain on the campus who would otherwise leave for greener pastures.

Chief Student Organizations

BLUE KEY: President, T. K. Cribb. Blue Key is the highest honor fraternity at Clemson. Members are chosen from leaders in extra-curricula activities who are outstanding in their service to the school. Purpose of the organization is the coordination of student activity for the betterment of Clemson.

THE TIGER: Editor, R. L. Breeland. Published weekly by students, The Tiger has no faculty censorship. All staff men are the products of student training, since Clemson offers no journalism courses.

THE TAPS: Editor, J. C. Her-ring. Published annually, The Taps gives a complete picture of student life at Clemson. All staff men are student trained.

TIGER BROTHERHOOD: President, R. L. Buchanan. Tiger Brotherhood is a Clemson honor service fraternity accepting members from the three upper classes.

GAMMA ALPHA MU: President, H. L. Cooler. Honor English fraternity for writers. Beta Chapter at The Citadel.

PHI KAPPA PHI: National high honor scholastic fraternity. WHO'S WHO in American Colleges and Universities: Composed of twenty-three outstanding members of the junior and senior classes.

CENTRAL DANCE ASSOCIATION: President, T. E. Stanley. CDA is the student body social organization, presenting all Clemson dances.

FOOTBALL TEAM: Captain, C. E. Wright. Clemson's major sports organization. **BLOCK C CLUB:** This club is composed of outstanding men in the major sports who have won their block letters.

YMCA: President, M. R. LeRoy. All Clemson students are members.

SENIOR PLATOON: Commander, L. S. Ligon. Alternate commander, L. T. Rawls. Clemson's crack fancy drill organization.

SCABARD AND BLADE: Captain, J. R. McRae. National honor military fraternity.

MINOR C CLUB: President, L. W. Milford. Honor scholastic fraternity for the school of general science.

SIGMA TAU EPSILON: President, T. K. Cribb. Honor scholastic fraternity for the school of general science.

ALPHA ZETA: Honor fraternity for the school of agriculture.

TAU BETA PI: Engineering honor scholastic fraternity.

PHI PSI: President, Charlie Howard. Textile school honor scholastic fraternity.

ALPHA PHI OMEGA: President, Earl Roberts. Service club for Boy Scouts.

MU BETA PSI: President, W. H. Donly. National fraternity recognizing talent among college musicians.

PHI ETA SIGMA: President, L. H. Hance. Freshman honor scholastic fraternity.

ALPHA TAU ALPHA: Honor scholastic fraternity for students of agricultural education.

ALPHA CHI SIGMA: Master Alchemist, J. H. Mappis. Honor scholastic fraternity for chemistry students.

IOTA LAMDA SIGMA: Honor scholastic fraternity for industrial education students.

CALHOUN FORENSIC SOCIETY: President, W. H. Goggans. Composed of students interested in forensic activities.

STRAWBERRY LEAF: Composed of students who are outstanding in forensic activities.

INTERNATIONAL RELATIONS CLUB: Members are chosen for interest in international affairs.

THE AGRARIAN: Editor, C. B. Fellers. Quarterly publication by students of the school of agriculture.

THE BOBBIN AND BEAKER: Editor, M. D. Moore. Publication of the students of the textile school.

THE SLIP STICK: Editor, W. H. Parks. Published by the students of the school of engineering.

OTHER ORGANIZATIONS: American Institute of Electrical Engineers, American Society of Mechanical Engineers, American Society of Civil Engineers, American Society of Agricultural Engineers, The Minarets, Animal Husbandry Club, Clemson Flying Cadets, Dairy Club, Future Farmers of America, The 4-H Club, The Junglers, Kappa Alpha Sigma, Pershing Rifles, Pre-Med Club, Glee Club.

SOCIAL ORGANIZATIONS: Sigma Epsilon, Alpha Chi Psi, Phi Sigma.

RELIGIOUS ORGANIZATIONS: Baptist Student Union, Presbyterian Student Association, Wesley Foundation (Methodist), Canterbury Club (Episcopal), Brandies Club (Jewish), The Newman Club (Catholic).

—that L. D. Rogers is currently sporting his full regalia, boots, and all, over in Spartanburg. Afraid you won't be wearing them long, Leonard?

DR. R. F. POOLE—

Dr. Robert Franklin Poole's Welcome To Freshman Class

Members of the Freshman Class:

The faculty, upperclassmen, and people of the community welcome you to Clemson. They look forward to your arrival and to an opportunity of becoming acquainted with you. Perhaps for the average student the freshman year is the most enjoyable of his college life for it is during this time that he makes new and lasting friends.

Plans for matriculation and room assignment have been completed. We shall be glad to have your parents come with you if they wish, but it might be better for them to save tires and gasoline so that they may come for a visit later on after you are settled. I know that you would appreciate such a visit, especially if they bring one of your mother's big cakes.

I hope that you will come to Clemson with the determination to become excellent students and to maintain good scholastic and disciplinary records. Come with an attitude of cooperation and a willingness to participate in every phase of college work. This is essential to a happy existence here. You will find professors and students willing and anxious to assist you with your problems and all you need do is give them an opportunity to help you.

You are entering college at a time when practically the entire world is at war. Our nation will not perish if we prepare adequately for its defense. Human resources in South Carolina are imbued with patriotism and loyalty to both state and federal governments, but this loyalty will avail nothing unless it is accompanied by courage, fortitude, and perseverance.

Looking forward to your matriculation and to rendering what assistance I can toward making your stay at Clemson profitable and pleasant, I am

Sincerely yours,
R. F. POOLE, President.

—that he (oscar) is in an awful mood tonight & he (oscar) ain't gonna stop before casting a few dirty remarks.

—that maybe Doc Huff and his students should borrow the big telescope from the Haden Planetarium the next time they want to take a gander over first barracks way.

—that some of the summer widows would be surprised at the pep their drug store cowboys had around here when opportunity school was in full swing.

—that he could call names, but that would only lead to bloodshed. —that it's amazing just what some of our rising seniors will do to get a gander at the appointment list for this year.

—that summer school affords an OPPORTUNITY for raising grades, but most of the students just take on the opportunity part.

—that the Taps staff wasn't did right by.

—that they'll probably have the last laugh, though.

—that Pendleton females can cause more trouble than they're worth. He can't help but wonder if Emily thinks she's fooling Sittin.

—that Nip and Jap had a sweet racket in barracks this summer. If the venture was as profitable as it ought to have been, they come in the capitalist group now.

—that Talley's fears proved to be groundless. . . . maybe.

—that he (oscar) wouldn't be a bit surprised to see Ligon follow in Thompson's footsteps and try to make his gal a Taps Beauty too.

—that no we have Moss for a chaplain, we should be able to send missionaries to Africa and such places.

—that he misses all the boys more that he thought he would.

—that L. D. Rogers is currently sporting his full regalia, boots, and all, over in Spartanburg. Afraid you won't be wearing them long, Leonard?

—that he didn't think it was possible for a Charleston boy to go four years at Clemson without getting his name in the dirt column at least once, but it's happened and it's a shame. Vincent Sottile, illustrious at what? of '42 says it happened to him. Our apologies Sot, only wish I had known about that sooner. . . .

—that the wooden rifles Bonner got as samples for the senior platoon look pretty realistic.

—that "Bo" Sams' visitors created quite a stir on the halls the other night, and that the next time this happens he (oscar) wants to be around.

—that it is a relief to get rid of Thompson, anyway.

—that some of the appointments stink.

—that he knows why they got that way, too.

By BOB MOISE

It's just about "that time" again, and everybody's so happy.....because now we can go back to college again and see all our chums and playmates. (Which is a black-faced lie if ever there was one. But anyway, everybody's glad that since we are going back to college that we have the privilege of going to the best one what am).

Enough of that, we're mostly concerned with the freshmen right now. Here's a hearty welcome, men. If you like Clemson, Clemson will like you. If you don't like the place, better change your mind and go to the Army.

Our field is sports, so we'll try to give you a picture of what to expect in the realm of musclemen. First of all, there will be football. Our own "Rat" year, this column came out with something like this: Welcome, Freshmen. One of the first things you'll see when you arrive will be some of the football players strolling around the campus. Don't be afraid of them; they're a swell bunch of fellows. Well, we came, we saw and we were scared stiff. What would you do if your head was shaved to a funny looking nub and some dainty 200-pounder bellowed "Come here, Rat, and quick". Briefly, you'd be scared stiff. But you'd come to realize that all this is true: Clemson's athletes are a clean bunch and one that the school can be proud of.

GRIDSTERS

As for the football prospects, it's too early to make predictions. The War has everybody in a dither as to intercollegiate athletics. Coaches won't know about their squad strength until game time, because somebody's Draft Board might get "notions" at any time. Clemson looks forward to another good team. There will be several star lettermen returning as well as a fine crop of sophs.

Captain Charlie Wright will lead the Tigers from his center position while alternate Captain Marion "Hawk" Craig will be returning to handle the blocking back spot he has manned since he first put foot on the varsity squad.

Tackles Harold Pierce, "Bully" Cagle, and "Robbie" Robinson will be three of the few veteran linesmen coming back. Coach Howard will look to sophomores Chip Clark, Georgie Karambelas, Bill Hunter, L. J. Nalley and "bohunks" of last year, Jim Sammons, Jim Austell, and Dave Osteen, to plug the gaps left by such luminaries as Wade Padgett, captain of '41, Joe Blalock, All American, and Bobbie Fritts, All Southern.

Lettermen backs Claude Rothell, Harry Franklin, Butch Butler, Johnnie Sweattee and "bohunks" Ralph Kennerly and Felix Marbury will minimize the effect of losing such men as All Southern Charlie Timmons, Booty Payne and Norwood McElveen.

LOOKING AHEAD

It's hard to look ahead as far as boxing and basketball for obvious reasons, but we'll take a shot in the dark.

Pete Myers, the Monks Corner slugger will lead the "pugs". Myers proved a capable and dangerous man in the 165-pound weight last year and should have a good season to wind up his intercollegiate career.

J. W. Brown was good last year as a soph, but rumor says that the Marines got him for the duration. Heavy-weight "Robbie" Robinson should look much better now that he has had a year's seasoning.

Bob Moise will captain the basketballers with Walt Sears holding the alternate position. Sears proved his ability last year with poor support and should undoubtedly have a good year. "Hawk" Craig, recognized as one of the best long shot artists in the conference, lanky "Stick" Riley, and speedy Lee Milford comprise the nucleus around which Coach Norman will build.

Captain Don Belk of the baseball crew and Fred Morgan of the tracksters will have to bide their time and see what Uncle Sam leaves them for next spring.

SPIRIT FRESHMEN

Back to the subject of Freshmen and what they should and shouldn't do. The first and most important "Must" is that a "Rat" always backs the Tigers to the death just as all of the upperclassmen do. One word "Tradition" will cover the situation amply. We at Clemson and those who have gone before us are proud of the spirit of Tigertown. It's something that writing about won't enhance; it's there, we know it, we're proud of it, and that's all there is to it.

MEET THE HEADMAN

Another thing, Freshmen, meet the head coach: Frank Howard. Coach Howard was an All-American guard with the University of Alabama's Rose Bowl team and gained the title of the "little giant". Small, as college linesmen go, Howard was the pride of the South. He came to Tigertown with Jess Neely and the two built football at Clemson from small beginnings to a national power. Neely, after piloting the '39 Bengals to a Cotton Bowl victory over Boston College, was called to take the head mentor's position at Rice, and Frank Howard took over. He won the Bengal's first Southern Conference championship the next year.

Coach Howard is headman of all athletics at Clemson.

PHYSICAL TRAINING PROGRAM

From all indications the colleges and high schools of the state will have compulsory athletic programs this year, and it sounds good. We must all realize that we're going to school on borrowed time and by the graciousness of Uncle Sam. So, it's not surprising that our Uncle should want us to keep fit.

The program will be in line with the desire of Dr. Poole, which he expressed last year, that Clemson men take more exercise. We've needed more exercise for a good many years, and now that we have to take it we shouldn't complain.

ODDS 'N' ENDS: Charlie Timmons, All Southern Tiger fullback of the past three seasons was at Annapolis this summer for Naval training.....Jotini Joe Blalock, Tiger All American of last year, has finally taken the vows (and she ain't no waitress either).....Bobbie Fitts, All Southern tackle of the past three grid campaigns, is receiving Officers' Training at Fort Benning, Ga.....Wedding bells for Cleo Fennell, track captain, of last season. Fennell won the Southern indoor and outdoor pole vaulting championships last year as well as bettering his own state record.....Butch Butler, soph backfield flash of the past football season was seen employed by an Alabama power company and keeping in trim for the coming campaign.....Homer Coker of Turbeville (yes, that's in South Carolina), the lad who stole hitting honors for the Bengal diamondmen last season as a soph outfielder has done it again. Coker is well ahead of his teammates batting verges down with the Sumter municipal club which is playing a stiff schedule.....We heard via the grapevine that big Bill Chipley, football and basketball flash of the past two seasons, who left Clemson to join the Navy, was at Norfolk, Va., awaiting aviation training; is probably transferred by now.....That's the crop for now so we'll call it a day.....

Tigers Will Play Nine Games This Season

Clemson's 1942 football schedule includes nine games, three of them to be played in Clemson's new 20,000 capacity stadium. The schedule calls for six Southern Conference games, an Inter-Conference game with Auburn of the Southeastern Conference, an Intercollegiate Contest with Boston College, and the season's opener with Presbyterian.

The most awaited game of the season will probably be the clash between the Tigers and the Carolina Gamecocks which takes place in Columbia on October 22. Last year South Carolina defeated Clemson by a score of 13-14.

The complete 1942 schedule, including ticket prices to each game:

Sept. 19—P. C. at Clemson, \$1.10

Sept. 26—V. M. I. at Lynchburg, \$2.00

Oct. 3—N. C. State at Charlotte, \$2.00

Oct. 10—Boston College at Boston

Oct. 22—South Carolina at Columbia, \$2.40

Oct. 31—(Night) Wake Forest at Wake Forest, \$2.50

Nov. 7—George Washington at Clemson, \$1.65

Nov. 21—(Homecoming) Furman at Clemson, \$2.20

Nov. 28—Auburn at Auburn \$2.50

Football tickets can be purchased by writing to the Clemson Athletic Association, Clemson, S. C. Enclose 25c for postage and insurance, and make checks payable to The Clemson Athletic Association.

Harold Pierce—Clemson

Marion Butler—Clemson

The Head Man-

COACH FRANK HOWARD

'42 Team Strong, But Lacking In Experience, Says Sherman

The 1942 football team strength will be about the same as the 1941 team, predicts Joe Sherman, director of the Clemson News Service. Mr. Sherman says that Clemson's 1942 line will unquestionably be weaker than a year ago. The Tigers are not one of those teams that can stand the loss of 13 lettermen, including All-American Joe Blalock and All-Southern George Fritts, and go into another season feeling easy about the gaps left by their departure. There is relatively little line experience available, but what there is is pretty sturdy and possibly capable of holding things together long enough for a few of the youngsters to learn the ropes.

The big headache is at the tackles, with the guards only a little way back. The shifting of Harold Pierce from end to tackle left the flanks without a single letterman, but there is a very likely looking crop of sophomore ends, headed by pass catching Chip Clark and fast developing Red Stacey.

In spite of terrific backfield losses, there is a possibility that Clemson's 1942 backfield, as a whole, will be slightly stronger than that a year ago, Sherman says.

Reserve strength is causing Coach Frank Howard most of his sleepless nights. Tried and proven, reserve strength is at its lowest point in several years.

The probable lineup for the first two teams are:

FIRST TEAM

Player	WT.	Pos.
Chip Clark	187	end
Jack Stacey	180	tackle
Harold Pierce	187	tackle
Dave Osteen	182	guard
Bill Hunter	171	guard
Charlie Wright	179	center
Claude Rothell	176	block back
Harry Franklin	168	wingback
Marion Butler	173	tailback
Felix Marbury	170	fullback

The second team will probably consist of Jim Rhea, Melvin Smith, Bill Smith, Bill Arrants, Geo. Karambelas, Charlie Mims, Jim Austell, Marion Craig, Hank Sullivan, Ralph Kennerly, and Red McCowan.

The American Classical league, world's largest classical organization, has transferred its headquarters from New York to the Joint University Library building in Nashville, Tenn.

'HAL'S REALLY CRAZY ABOUT ME... HE SAYS I'M WORTH MY WEIGHT IN SAVINGS STAMPS'

Contributed by the American Society of Magazine Cartoonists.

Tigers Lose 17 Men Via Army And Graduation

Seventeen valuable gridsters have been lost to the football team through graduation and entrance into the armed forces. All of the players were lettermen.

Those who graduated include Wade Padgett, All South Carolina guard; Joe Blalock, All American Football News end; George Fritts, All Southern Conference tackle; Charlie Timmons, All Southern Conference fullback; Ray Hamer, tackle; Tom Wright, tackle; Norwood McElveen, blocking back; Hugh Jamison, center; Leonard Jordan, guard; Red Sandifer, guard; and Jim Parker, tailback.

Four of the players entered the armed forces. They are Booty Payne, All South Carolina tailback, Sid Tinsley, tailback, Bill Chipley, end, and Marion Wood, tackle. Carrol Hambright, tackle, will not return because of illness, and Ed Locklear, end, has withdrawn from school.

M'Fadden, Payne On Wade's Squad

Two top-ranking stars of Clemson's 1939 Cotton Bowl championship team, All American Banks M'Fadden and '39 Captain Joe Payne, are together again on the gridiron, this time as members of Major Wallace Wade's army western all-stars.

The only nationally recognized All American football player in the history of South Carolina football, M'Fadden was placed on the All American first teams by the Associated Press, NEA, Grantland Rice (for Collier's), and Paramount News. Last year he was assistant backfield coach here at Clemson.

Payne captained the 1939 Clemson team that won seven games, dropped a 6 to 7 decision to Tulane and defeated Boston College 6 to 3 for the 1940 Cotton Bowl title. Since his football days here, Payne has been in the Army Air Corps.

Claude Rothell—Clemson

Howard Faces Year With Reduced Staff

John Cagle—Clemson

Harry Franklin—Clemson

Former Student Receives Wings

Four former Clemson students recently reported for further flight instructions at the Greenville Army Flying School, Greenville, Mississippi, which is a unit of the Southeast Air Corps Training Center. They include Jas. L. Cox, Thomas P. Bennett, James A. Norton, Jr., and Edward R. Norton. Upon completion of their flight training at Greenville, these aviation cadets will be sent to another Southeast Training Field for final flight instructions. Upon completion of this course, they will receive their coveted "wings", and a commission as a Second Lieutenant in the Army Air Corps.

Last Year Grad At Oklahoma Base

Second Lieutenant B. M. James, Jr., civil engineering '42 of Greenville and Washington, D. C., reported for duty with an Engineers Corps unit at Will Rogers Field, Oklahoma City, Oklahoma. While at Clemson he was a member of A. S. M. E.

Young, bald Frank Howard is now in his third year as ringmaster of the Clemson Tigers, and with a 50 per cent reduction in his coaching personnel over last year.

Three 1941 Clemson coaches have taken up arms against the Axis powers since last fall, leaving head mentor Howard, line coach Tom Rogers, and freshman coach A. W. (Rock) Norman to nurse the Tigers through the duration.

Backfield Coach Covington McMillan, line coach Walter Cox, and backfield assistant Banks McFadden have joined Uncle Sam's team in the most sinister and serious contest of all time. All three Clemson graduates and former football stars, this trio is now numbered among the 2,035 former Clemson students known to be in the nation's armed services.

Two other former Clemson stars and members of recent Clemson coaching staffs are also among the Tigers under arms. Major Bob Jones, freshman coach until February 1940, and First Lieutenant Randy Tinson, freshman assistant and varsity baseball coach until the Army called two years ago, are helping mix powder-laden doses for Hitler's world gangsters.

Though this is only Howard's third year as Clemson's head coach, the former "little giant" of Alabama's 1930 Rose Bowl team is now in his 12th year at Clemson. He came here as Jess Neely's line coach for the season of 1931, and was elevated to the top spot when Neely broke ties at Clemson to take over at Rice Institute. Clemson's two Howard produced teams won 13, lost 4, and tied one.

Tom Rogers, a 1934 All-Southern Conference end at Duke and for three years end coach at Wake Forest, succeeded Bob Jones on the Clemson staff, and Freshman Coach A. W. (Rock) Norman came to Clemson from The Citadel in the spring of 1940.

Graduates Receive Army Commissions

Promotion of Captain Coy Rockwell Cook, horticulture '39 of Tallahassee, Florida, formerly of Charleston, to the rank of major was announced recently. He is now stationed at Dale Mabry Field, Tallahassee.

Before his call to active Army duty in December 1940, he was commanding officer of Civilian Conservation Corps camps.

Clemson Installs Signal Communications ROTC Unit

Committee Announces Changes In Freshman Curriculum

Lab Courses Are Emphasized More

In accord with the recommendations of the Curriculum Committee, definite changes have been made in the basic curriculum. These changes include greater uniformity in the subjects required in the freshman year of the various courses of study, a strengthening and unifying of the subjects required in the basic sciences, and the provision for additional instruction in English and mathematics for freshmen inadequately prepared by the high schools from which they were graduated.

In the freshman year, the course in general chemistry has been strengthened by including an additional hour per week of laboratory work, the requirement in mathematics has been increased in some major courses to make a uniform requirement of five hours per week throughout the session, and the freshman curriculum in every major course has been built upon a uniform foundation of fundamental subjects. The unnecessary variations in the freshman curricula have been eliminated, and three-fourths of the work required in the freshman year is now for all courses.

The unification of the freshman curriculum eliminated three weaker courses in mathematics previously required in some major fields. In the sophomore year three weaker courses in physics have been eliminated by the requirement that all students must take at least four semester credit hours of physics each semester. The basic course in physics now includes three hours of theory and three hours of laboratory work per week throughout the session. In the Botany Department, four different courses in general botany have been consolidated into one, which consists of three hours of theory and three hours of laboratory work for one semester.

In addition to the changes in the basic curriculum, a few changes have been made in the curriculum for the upperclassmen; these changes will be put into effect as soon as possible. Some subject is required in both the old and new curricula, it will be definitely required for graduation for all classes regardless of how it has been shifted.

President Names Honor Graduates

Twenty-six members of the 1942 graduating class were designated as honor graduates at the commencement exercises of Clemson in May.

According to a plan adopted in 1937, the highest ten per cent of the graduating classes are designated as honor graduates, provided that no student be so designated unless he has a grade-point ratio of 6.5 or above, which is equivalent to an average grade of "B plus".

The list of 1942 honor graduates includes the following members of the class: James Harrison Barton, Anderson; Aaron Verre Boeggs, Pickens; Ernest Brooks Brown, Philadelphia, Pa.; Roger Leroy Bull, Santee; Olin Benjamin Cannon, Jr., Newberry; Fountain Grady Cash, Jr., Tucka; James Joseph Casserly, Flushing, N. Y.; Larry Warren Coker, Turberville; Joseph Ganit Ferguson, Winnsboro.

Also Thomas Edmond Garrison, Jr., Anderson; Richard Edwards Getz, Lugoff; Ralph Newton Gleason, Seneca; Luther Carlisle Hammond, Seneca; Hal Henry Holmes, Conway; Wesley Carr Kinder, Kingstree; Evans Allen LaRoche, Johns Island; Kurt Mueller, San Francisco, Calif.; Joe White Nims, Jr., Lancaster; Durward George O'Dell, Spartanburg; John Richard Sosnowski, Johns Island; Fred Buchanan, Strawhorn; Bradley Harry Lyle Sturgis, Rock Hill; Frank Hutchinson Thames, Jr., Charleston; Francis Sinclair Webster, Jr., Greenville; Gordon Edmund Williams, Miami, Fla.; and Robert Stanford Woodhurst, Jr., Abbeville.

Two Clemson Men At Randolph Field

Second Lieutenant Herbert J. Copeland, '41 of Hilton Village, Virginia, and Jerome N. Davis of Ware Shoals, who attended Clemson in 1937, recently reported to the world's largest and oldest basic flying school, Randolph Field, Texas, for the second phase of training as Army Air Force fighting and bombing pilots.

Clemson Men Receive Wings

Five Clemson men, two of them graduates, received their wings recently. The graduates are Lieutenants Jack Charles, '41 of Redmont and Arthur R. Garner, Jr., '39 of Timmonsville. The other three men include Lieutenants Jean P. Doar of Charlotte, N. C., John S. Boatwright of Ridge Springs, and Charles H. Zimmerman of St. Matthews.

Clemson Completes Second Term Of Largest Summer School Ever

Friday brought to a close the second of the two largest sessions of regular summer school in the history of Clemson. With a total of 601 students for the first term and 406 for the second, and with the broadest range of subjects ever offered, it was the largest program of its kind in the state. Operated for the first time under the regular college administration, the summer sessions have been a great aid in enabling countless students to keep up.

With 263 students attending both sessions, 582 of the total number for the two sessions were Clemson

students. Forty-four came from other colleges, forty-two were high school graduates, thirty-three were school teachers, three were graduate students, and forty were special students. For the first term more than 100 courses were taught under forty-six instructors. Sixty courses were taught the second term with twenty-seven instructors teaching.

The mess hall and laundry operated for the convenience of the students during the first term, while the laundry alone operated the second term. During the first term, both second and third barracks were in use, while the second term required only third barracks.

Hudson To Head Mu Beta Psi

J. E. Hudson, pre-medicine '43 of Greenville, was elected president of Mu Beta Psi, National musical fraternity at the close of the session last May. J. L. Sanders, mechanical engineering '43 of Rock Hill was named vice president, J. O. Dysart, textile engineering '43 of Greenville, was named secretary, and L. M. Wington, electrical engineering '43 of Anderson was elect-treasurer.

Mu Beta Psi chooses its members from outstanding students on the Band, Glee Club, and the College Orchestra.

Awtrey And Gordon At Camp Polk, La.

Lieutenants William (Bill) E. Awtrey, general science '41 of West Columbia, and Charles P. Gordon, Jr., textile chemistry '35 of Ware Shoals, recently reported to Camp Polk, La. Gordon has been attached to the 31st Armored Regiment.

While at Clemson, Awtrey was a member of the swimming and track teams, second place winner in 1939 in the Carolina A. A. U. diving competition, and an honor graduate. He was a member of Tiger Brotherhood, Blue Key, and several other honor fraternities.

Huff Returns From N. Carolina State

Dr. L. D. Huff, professor of Physics, has returned to Clemson after a year's leave of absence. He has been at N. C. State where he replaced Professor J. S. Mears, when Professor Mears came to Clemson to make experiments on the Cosmic Rays.

Three Former Cadets In Army Air Corps

Captain Clarence W. Rice of Hartwell, Georgia, and Navigation Cadets Lewis B. Lawter of Spartanburg, and Collins Hill, Jr., of Norfolk, Virginia, three former Clemson students, recently reported to the Army Air Forces Flying School at Turner Field, Albany, Georgia for the final stages of training as Aviation Cadets. They will soon receive their "wings".

Metz Names Honor Students Of Second Semester Of Last Year

The list of upperclassmen qualifying for the second-semester honor list for the 1941-1942 session has been compiled by the Registrar's office.

Men who made the high-honor list maintained a grade-point ratio of 7.5 or above. Men who attained honors made grade-point ratios of 6.0 to 7.5.

Names are listed in order of rank. A star (*) indicates tie for place.

HIGHEST HONORS

H. E. Blanton and E. H. Shirley.

HIGH HONORS

Junior Class
H. E. Blanton; L. R. Cox; C. B. Lowman; C. P. Beasley; I. M. Pearlstone; L. D. Rogers; J. B. Pate; W. A. Collins; C. H. Brown; J. H. Mappus; R. A. Scott; D. C. Ladd; W. R. Marsh; H. M. Simon.

Sophomore Class

E. H. Shirley; T. S. Armour; H. C. Jones; J. G. Mann; L. H. Hance; R. C. Brown; T. Vuksta; G. H. Bradley; G. C. Norton; W. G. Albergotti; E. Hutto; L. O. Drew; J. H. Horton; A. D. Gantt; J. W. Califf; J. W. Davis; M. A. Sheut; R. Rawson.

Freshman Class

W. D. Brackett; E. L. Price; N. W. Skinner; J. C. Putnam; D. J. Brimmer; J. W. Hinz; T. E. Stone; E. B. Hadlow; J. F. Sutton; J. S. Barker; R. H. Thompson; N. S. Anderson; G. W. Clark; M. H. Peterson; J. M. Barksdale; E. T. DuPre; J. A. Stewart; L. W. Felkel; H. B. Rosenstock; E. M. Ralings; W. T. Hammond.

Clemson's Leaders

DR. R. F. POOLE
President

COL. H. M. POOL
Commandant

J. C. LITTLEJOHN
Business Manager

S. W. EVANS
Treasurer

G. E. METZ
Registrar

MISS LUCIENS LEAVES

Miss Lucia Hudgens, who for the past few years has been a stenographer in the Agronomy Department, leaves tomorrow for Fort Des Moines, Iowa. There, Miss Hudgens will begin training for a lieutenant's commission in the W. A. C.

Stanley Announces Schedule For Clemson Dances Next Year

Rat Hop Set For September 18-19

Tom Stanley, president of the Central Dance Association, today urged all freshmen as well as upperclassmen to make arrangements now to have a date up for Rat Hop, first dance of the year given in honor of the freshmen. The date for the two dance informal series has been set for September 18-19, week-end of the P. O. Clemson game.

President Stanley said that in spite of the fact that the CDA might be forced to economize on the budget this year due to an anticipated decrease in dance attendance because of war difficulties, the organization would continue its policy of obtaining for Clemson the best bands available.

The tentative dance schedule for 1942-43 follows:

Freshman Hop—Sept. 18-19.
Tiger Ball—Oct. 16-17.
Autumn Ball—Nov. 20-21.
Military Ball—Dec. 11-12.
Mid-Winters—Feb. 5-6.
Ring Dance—March 5.
Athletic Ball—March 6.
Taps Ball—April 16-17.
Junior-Senior—May 7-8.
Finales—May 29.

All dates are subject to change.

Book Exchange Be Open When Freshmen Arrive

The Tiger Brotherhood Book Exchange, named for the organization sponsoring and operating the cooperative undertaking, will be open for business in the basement of the Main Building when the freshmen arrive for school, Bob Buchanan, Tiger Brotherhood president, said.

The Book Exchange will handle books for all four classes. Prices were set by the students themselves when the books were turned in for storage at the end of last year.

Designed as a means of splitting between the buyer and seller the usual retailer's profit on used books, the exchange hopes to enlarge its handling facilities to include all necessary school supplies if student confidence warrants such an expansion later on.

Introduced by a committee headed by George O'Dell, chemistry '42, the exchange program has the full backing of the Board of Trustees. Here is how the Book Exchange works:

Students turn in their used books at the end of the semester at the Book Exchange room in the basement of the Main Building.

The student sets his own price on his books, and is given a receipt for each of them.

At the beginning of the next semester, the Book Exchange will sell the books to buyers at exactly the prices set by their owners.

As soon as a book is sold, the full price, less a ten cent charge for insurance, will be paid to the original owner.

The Book Exchange will be operated by members of Tiger Brotherhood as a part of their program of service to the school.

The ten cent charge per book will go to pay insurance for keeping the book over the summer and to defray bookkeeping costs. No money will be used for any other purpose.

The exchange will not guarantee the sale of any book on which the price is too high.

Military Staff Still Uncertain

The entire personnel of the Commandant's staff, with the exception of Captain Norrell who is on duty here, has been an temporary duty elsewhere during the summer.

Colonel Pool said yesterday that he did not know when the members of the staff will return, and that he was not certain that any of the officers would be assigned to duty here for this year's school session.

Major F. B. Farr and Captain P. J. Brown are at present on temporary duty at North Carolina State College. Colonel J. V. Simms and Captain Barber have been on temporary duty at Fort Jackson, S. C. for the past three months.

Lieutenant C. McMillan and Lieutenant H. H. Hill are on duty at the officers candidate school at Fort McLeellan, Georgia.

Colonel Pool said that the only new officer on the staff thus far is Captain Robert A. Van Houten who has been transferred to duty here from Georgia Tech. as a replacement for Captain Gaffney who is now on active duty with the 4th Division.

Four Graduates Receive Promotions

Four 1941 graduates stationed at Camp Croft, South Carolina, were recently promoted to the rank of first lieutenant. They include Claude B. Poole who finished with a degree in mechanical engineering, William H. Lowe who finished in textile engineering, Paul DeWitt Seabrook who finished in horticulture, and Jack H. Osborne who finished in civil engineering.

Former Company Really Rates

Former Company C-2 (1940-41), under the leadership of Captain E. W. Durham '41, and First Sergeant B. M. James '42, have really made a showing in the cadet appointment list for the coming season.

Nathan J. Thomas, last year's best drilled sophomore, will be Master Supply Sergeant on the Brigade Staff, Curtis A. Suthern (a corporal on C-2 and a first sergeant last year) will be Executive Lieutenant Colonel on the First Regiment Staff, Alvin A. Mayer (a corporal on C-2 and a Battalion Sergeant Major last year) will be Supply Captain on the First Regiment Staff, and William S. Pierce, best drilled cadet while on C-2, will be Master Sergeant Major on the First Regiment Staff.

John R. Derrick, (a corporal on C-2 and a first sergeant last year), will be Lieutenant Colonel of the Third Battalion, Donald H. Buhrmester, (also a corporal on C-2) will be Executive Captain on the Third Battalion Staff, and Francis K. Wallace will be a Company Commander.

In the line of First Sergeants, C-2 produced four. They are John M. Marvin, William W. Fowler, J. R. Garraux, and J. Wilson Webb, Jr. Joe K. Jones will hold the rank of Supply Sergeant.

State Grange Holds Meeting

More than one hundred members of the State Grange Association, national farm organization, attended the 13th annual meeting of the Grange here at Clemson, August 19-21. W. A. Hambright of Blacksburg is State Master.

The Grange is composed of farm families and though it is not a political organization, it stands for equality in agriculture. Dr. D. W. Daniel, dean emeritus of the school of general science, was guest speaker at a banquet given Thursday night.

The purpose of this meeting is to discuss farm problems common to South Carolina agriculturists.

W. T. CAIN GETS WINGS

William T. Cain, Jr., of Eastover, a former Clemson student, has received his "wings" as an Ensign in the United States Naval Reserve, and has been ordered to active duty with the Naval Air Corps. He enlisted on June 2, 1941.

Opportunity School Graduates 270 In Clemson Summer Session

Commencement exercises were held last Friday evening, signifying the close of the 22nd session of the Opportunity School, operated each summer at Clemson under the supervision of the Adult Division of the State Department of Education. Miss Will Lou Gray, State Supervisor of Adult Schools, and founder of the Opportunity School, was in charge this summer. The term began on July 18.

The purpose of the Opportunity School is to give ambitious people of South Carolina who cannot go to day school or college an opportunity to study anything they wish for one month. The school is a cooperative undertaking and its faculty is paid by the state. Ages of the 270 pupils that attended ranged from 14 to 72 years, the average being 20. Eighteen of the men enrolled were rejected from the army because they couldn't meet 4th grade army requirements.

Twenty-two dollars covers all expenses for the entire month at Clemson, with the exception of transportation to and from the school. This includes room, board, laundry, books, school supplies, and all fees. Two hundred dollars was donated by interested people for scholarship aid. This was assigned to pupils who were unable to meet all of the required expenses.

A number of the courses offered include algebra, arithmetic, chorus singing, civilian defense,

Enlisted Reserve Quotas Are Set

The Commandant has announced that the quota for the enlisted reserve has been set at 197 for freshmen, 157 for sophomores, 113 for juniors, and 90 for seniors.

Colonel Pool said that the war department has devised this plan to "insure for the army a future source of qualified officer candidates from college graduates."

Colonel Pool said, "All students except ROTC cadets, who enlist in the Army Enlisted Reserve Corps must take a qualifying examination during the next calendar year. Those students who pass the examination above a certain level will be permitted to continue their college course on an inactive reserve status. Students who fail to pass the examination with a grade above a required standard are subject to the draft at the end of the current semester."

"The examination will be required only of those students who are not in the ROTC," Colonel Pool reminded.

"For the past few years," Colonel Pool said, "A limited number of our ROTC graduates have been commissioned in the Naval and Marine Corps reserve, and this policy will be continued this year."

Artist Series To Be Best Yet

Five of the most outstanding musical attractions ever offered to a Clemson audience will be presented here beginning this fall in the third annual Artist Series. The exact dates will be announced later.

In October, James Melton, young American tenor, will begin the season, followed in November by the first grand opera to be held at Clemson, Puccini's popular and melodious "Boheme." It is under the direction of Charles L. Wagner with stars of the Metropolitan Opera Company in the leading roles. The General Plottoff Don Cossack Chorus will appear in January. They are now in their fifteenth successful year as a touring concert feature, playing in six continents. Folk songs and religious music of old Russia are their speciality, with a liberal sprinkling of native dancing. The entire program will be presented without musical accompaniment.

The National Symphony Orchestra, will return to Clemson in February for a second appearance. They appeared here last year, and under the baton of Dr. Hans Kindler, proved immensely popular. The concert series will be concluded in March with the presentation of Fray and Braggiotti, duo pianists.

The line-up for next year: October—James Melton, November—"LaBoheme," Grand Opera.

January—Don Cossack Chorus. February—National Symphony. March—Fray and Braggiotti.

Only Students In M.E. And E.E. Termed Eligible

The cadet corps military training program will undergo a vast expansion program at the beginning of the 1942-43 session. The Commandant's office has announced that in addition to the infantry training unit here, a signal corps unit will be established for the training of reserve officers for that branch of the service of the army.

Present plans call for an enrollment of 240 basic trainees and sixty advanced course trainees. Approximately half of the basic students will be drawn from the freshman class, and half from the sophomore class. Likewise, half of the advanced course trainees will come from the junior class, and the remaining half from the senior class.

Colonel Pool said that enrollment for the signal corps training will be limited to those cadets taking electrical and mechanical engineering.

Two signal corps officers and five non commissioned officers will be stationed here with the signal corps unit to instruct the trainees in radio, telegraphy, and wire transmission, in fact, all types of communication.

English And Math Placement Exams Will Be Required

Since English and Mathematics are required in all courses at Clemson, and since these subjects form a background for certain subjects later in the college course, all freshmen will be required to stand a placement examination in these two subjects shortly after the opening of College in September.

For the freshmen who fail the placement examination in English, the College will provide five hours of instruction in English during the first semester instead of three. This is being done in order that these students may have a greater opportunity to complete successfully the required work in English for the first semester and avoid the necessary background for subsequent courses in this subject.

A placement examination in Algebra will be given to freshmen majoring in Agricultural Engineering, or in any major course offered under the Schools of Chemistry, Engineering, General Science and Textiles. Freshmen who fail this examination will take a five credit course in Algebra during the first semester and postpone the course in trigonometry until the second semester. If a student does not complete all of the required courses in freshman mathematics by the end of the freshman year, he will be allowed to make up this deficiency during the following summer at summer school.

Fourteen Named For Sears Awards

Fourteen prospective Clemson freshmen have been named winners of Sears, Roebuck Agricultural Foundation scholarships for next year. Winners are determined by competitive examination.

Those winning scholarships are W. T. Clayton of Central, W. D. Darby of Honea Path, M. H. Dorsey of Chester, L. I. Gibbons of New Zion, J. W. Goodman of Mountville, J. C. Hammond of Aiken, J. G. Hardee of Loris, M. W. Hills of Johns Island, L. T. Judy of Neeses, W. M. Loupp of Lake View, H. F. Livingston of North, Leonard Reynolds of Timmonsville, J. W. Snipes of Marion, and Smith Worley, Jr., of Windsor.

In the event that any one of the winners is unable to take advantage of the scholarship, six alternates were selected. They are, in order of rank, G. H. Leonard of Greer, G. L. Patterson of Abbeville, H. L. Williams of Swansea, W. T. Hawkins of Taylors, M. H. Kirkpatrick of Olio, and C. E. "Severance" of Darlington.

These scholarships, worth \$200 each, are open to freshmen who wish to take one of the seven major courses offered by the school of Agriculture. They are limited to farm boys of South Carolina who have shown interest and achievement in 4-H Club or F. F. A. work.

NYA Applicants To Be Notified

If sufficient information is received from the National Youth Administration during the next few weeks, all applicants will be notified before September 1 as to whether or not they are awarded jobs for the coming session.

The applications for N. Y. A. work are being considered by the faculty committee at this time, but late applications will also be considered if vacancies occur during the year. N. Y. A. blanks may be secured from the Registrar, Clemson College, Clemson, South Carolina.
